April 1, 2011

Dear All

Notice of Production stoppage of Precision Ball Screw 『BNFN』 type

We are glad to hear that things are going well for you, and thank you so much for your trust and patronage.

We have been developing something better with our Linear Motion Systems for the first time, and various developed products by changing the model so that we have introduced many new products into the world-wide markets.

At this time, we would like to make an announcement that Precision Ball Screw Double nut type 『BNFN』type model 105 items will be suspending the production by improving the machining technologies so that we have fully integrated 『BNFN』with 『BIF』which has off-set pre-loaded type.

We notify more detail schedule of production stoppage as follows.

We would like to take this opportunity to thank you your past patronage with 『BNFN』, and continue your patronage with 『BIF』from now on.

We will exert our fullest efforts to continue for supplying more better products into the market and thank you in advance for your understanding and cooperation.

Best regards,
Junji Shimomaki
